

LOGIN INSTRUCTIONS FOR STARS & CCV REGISTRATIONS

STARS Registrations now require a parent/family login to help secure the data that is submitted and make future registrations much smoother. Please be sure you are logging in as a parent and then selecting your participating CHILD/PLAYER that you wish to register from the drop-down menu.

- **If you are returning and remember your CCV or STARS login**, please enter it and select the family member you are registering from the drop-down menu. If it is a family member that is not listed, please select the blank space and fill in all data.
- **If you know you have a login but do not remember** your information – please click ‘Forgot Account’ and follow those prompts to receive or reset your information.
- **If you have participated in CCV or STARS events before but do not have a login**, please click ‘Register’ to create one. If it finds your information in the system, it will have you verify who you are and email you a link to confirm your new login information. At that time, you can continue with your registration.
- **If you are new to STARS and/or CCV**, please click ‘Register’ to create a new account and complete registration.

Once logged in, please go to the bottom of the page and click on ‘My Account’ to access your family/team information.

- **If you’ve logged in and it asks you for a code**, please ignore that and click on ‘My Account’ at the bottom of the page.

If these options don’t work for you, please contact us at YouthSports@ccvstars.com or at #623-298-2923 for further help.
