

US Youth Soccer has thought long and hard about the answer to the question, "Why Small-Sided Games?"

What does "Small-Sided Games" mean? These are soccer games with fewer players competing on a smaller sized field. These are fun games that involve the players more because fewer players are sharing one ball.

1. Because we want our young soccer players to touch the soccer ball more often and become *more skillful* with it! (Individual technical development)
2. Because we want our young soccer players to make *more, less-complicated decisions* during the game! (Tactical development)
3. Because we want our young soccer players to be more physically *efficient* in the field space they are playing in! (Reduced field size)
4. Because we want our young soccer players to have more *individual teaching time* with the coach! Less players on the field and less players on the team will guarantee this! (Need to feel worthy and need to feel important)
5. Because we want our young soccer players to have *more, involved playing time* in the game! (More opportunity to solve problems that only the game presents)
6. Because we want our young soccer players to have *more opportunity to play on both sides of the ball!*(More exposure to attacking and defending situations)
7. Because we want our young soccer players to have *more opportunities to score goals!* (Pure excitement)

These are the reasons why we adults must foster "Small-Sided Games" in our youth soccer programs. The "Small-Sided" environment is a *developmentally appropriate environment* for our young soccer players. It's a FUN environment that *focuses on the young soccer player.*

It just makes sense doesn't it?
